

Event Bio Report: Process Guide

Part 1: Pull Attendee Data from Aventri and Raiser's Edge

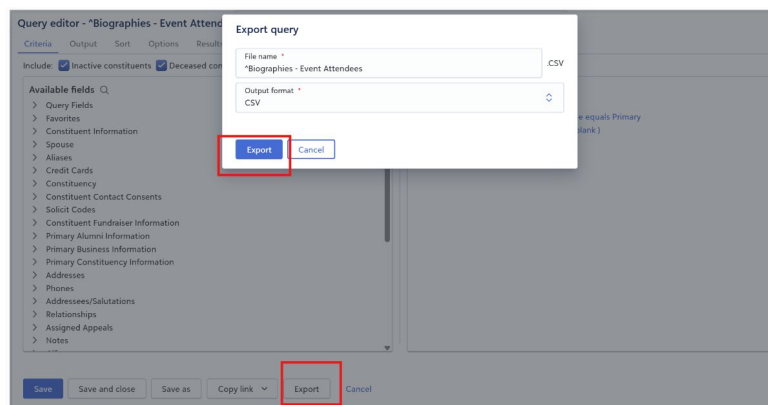

1. In Aventri, locate the event's MIL. Download the MIL with response file and filter for "Confirmed" responses.
2. Open Raiser's Edge NXT (web view).
3. In the left sidebar, navigate to **Query**.

4. Under Events, locate the ^Biographies – Event Attendees query.

5. Click **Export** and select **Export in .csv format**.

- When prompted, select **“One of”** for Constituent ID. Copy the confirmed constituent IDs from your event “MIL w/ response” spreadsheet, paste them in, then click **OK**.

Select ask values for "Biographies - Event Attendees"

Constituent ID

Part 2: Populate the Event Bio Template

- Open **Event Bio Template.xlsx** (*Ensure macros are enabled before proceeding.*)
- In the **MIL** tab, click **Browse**, upload the CSV file exported from RE, then click **Paste**.
- In the **HC** and **NOM** tabs, click **Browse** and upload **HC+_AND_** and **NOMNEWBR** respectively, then click **Paste**. Both files can be exported from RE Database View under **Query > Events 1.1 Exports for Formatting**. Open each, update to today's date, and export.

- Once all three files are uploaded, navigate to the **Formatted** tab and click **Format Bio List**. Leave the file open.
- Open a new blank Excel file. Copy all rows generated in the Formatted tab and paste them into the new file.
- Save the new file as an .xlsx, named after the event.

Part 3: Generate and Download the PDF Report

1. Open the Event Bio Report tool: <https://hoover-dev-event-tools.pages.dev/bio/>
2. Enter the **Event Name and Date** (e.g., *Carmel Dinner with Jacquelyn Schneider – June 18, 2026*). Upload the Excel file you just saved, then click **Preview Report**.
3. Review the preview, then click **Download PDF** and save the file.
